

# 2016 SUMMER ACADEMIES

## Developing a Growth Mindset Classroom

During this interactive 6-hour workshop, educators will rethink what makes students successful. The research of Carol Dweck helps professionals realize that talent and ability can be developed through dedicated effort, deliberate practice, and time devoted to improvement.

## 5 Proven Ways to Increase Achievement

What factors really help students achieve in school? New programs and initiatives come and go, but the compilation of research studies can point educators in the right direction toward improved student achievement. This 6-hour workshop is based on the work of renowned educator, author, and researcher Eric Jensen.
